Superior Flexibility
- 

Simple:
Rapid & Repeatable Settings
- 

Lean & Green:
Reduces Material & Ink Waste
- 

Precise:
Consistent Print Quality Management
- 

Smart Business:
Redefines Profitability

The Performance You Need, **Evolved**

Quality

With precise independent inking and impression, robust die cutting options and precision tension control, reliable high-quality label and film production comes standard with Evolution Series E3.

Profitability

Demonstrated registration performance, tangible waste savings and less material ensures a substantial impact to your bottom line.

Productivity

Fast changeovers for print and die stations carry through from the Performance Series to the Evolution Series, reducing downtime and increasing daily capacity limits.

Support

With the largest global service team in the industry, you are supported by Mark Andy to succeed. Beyond technical assistance, we offer our partners business development consulting, application expertise, and all the parts and consumables needed from a true Total Solutions Partner.

Evolution Series E3 introduces Mark Andy ProUV technology. Powered by Phidastien's proven UV curing technology, ProUV enables high-quality, reliable results converters can count on - all backed by Mark Andy's global service network.

ProUV is a fully integrated curing system, with power and air located on-press within a single cabinet to help converters maintain a smaller pressroom footprint.

Mark Andy ProUV

With high efficiency power supplies, ProUV users can expect energy savings through power factor up to 94%.

ProUV electronic power supplies are also LED compatible, a feature that provides production versatility to label manufacturers. Fully adaptive ventilation control allows for greater temperature variance as ProUV lamps are at the optimal temperature in every environment.

Rail System

Provides maximum flexibility and allows for the addition of further converting options.

E3 Features & Options to Maximize Print Potential

Web Cleaning/Corona Treatment

Enhance the performance of your press by removing web contaminants.

Auto Registration Suite

Simple and swift for any operator, regardless of skill level.
